<b>Student Expectations:</b>	<ol style="list-style-type: none"><li>1. Policies written in your student handbook will be enforced.</li><li>2. No <u>hats</u> worn in building</li></ol>
<b>Personal Conduct:</b>	<ol style="list-style-type: none"><li>1. Be on time!</li><li>2. Be responsible, respectful &amp; helpful.</li><li>3. Be willing to try your very best.</li><li>4. Be patient.</li><li>5. Be eager and willing to learn.</li><li>6. Ask for assistance if needed.</li></ol>
<b>Materials Needed for Classroom Instruction:</b>	<ol style="list-style-type: none"><li>1. Notebook (three ring binder with dividers)</li><li>2. Pencil/pen</li><li>3. Bellringer book (will make in class)</li><li>4. <b>Coveralls</b></li></ol>
<b>Intra-curricular FFA Development Activities:</b>	There will be various opportunities to participate in FFA Activities throughout the semester. Some of these activities include Career Development Events, FFA Meetings and various other activities. You may have the opportunity to receive credit for participating in FFA activities outside of the normal classroom setting. Your instructor will announce these voluntary opportunities during class.
<b>Help out of class</b>	Tiger time and after school are good times to get additional help.
<b>Mass text reminder</b>	Miss Vines will send out mass text reminders through reminder 101 for teachers. When you follow the directions attached you will receive reminders on upcoming due dates or quiz/test dates. This number is for both <b><u>you and your parents</u></b> and is optional. Miss Vines cannot access your number and the number provided is a computer generated number <u>not</u> Miss Vines personal cell.
<b>Out of class project</b>	Students will have to complete an out of class project and present their project to the class. The project has to be related to mechanics. Examples: home repair or construction of wood projects.
<b>Student grade</b>	Students should communicate with Miss Vines about any concerns with their grades and missed school work.

## Introduction to Agricultural Mechanics

**Course Description:** This is an introductory course in basic mechanical skills. Students will develop skills in tool identification, tool reconditioning, basic electricity, basic plumbing, wood working, hot and cold metal working. Emphasis will be placed on safety and proper use of tools and equipment.

### **REQUIRED**

The student must provide coveralls and closed toed shoes for safety while working in the shop. Students will have an in class locker to keep coveralls in during the year.

### **COURSE OUTLINE**

The course content includes:

- Safety
- Careers
- Measuring
- Tool and Fastener Identification
- Wood working
- Plastic and Metal Pipe Work
- Basic Electricity

### **GRADES**

Student grades will be determined by performance on:

- Assignments
- Projects
- Quizzes
- Tests
- Final

-----  
**My personal goals for this class are:**

- 1.**
- 2.**
- 3.**

**I have read the course expectations and agree to follow them throughout the semester.**
